Thu Duc, TP.HCM

Education

UTH - University of Transport Ho Chi Minh City

| Sep 2023 - Sep 2027

Major: Information Technology

GPA: 3.3/4.0

Technical Skills

Frontend

HTML, CSS, Javascript

ReactJS/NextJS

TailwindCSS

Backend

NodeJS

ExpressJS

Socket.IO

Projects

SPACEZONE - SOCIAL MEDIA | 03/2025 - 06/2025

FullStack Developer

Responsive full-stack social media web application featuring user authentication, social interactions, friend connections, messaging, and profile customization.

Responsibilities

- Built responsive and user-friendly interfaces using *ReactJS* and *TailwindCSS*.
- Developed backend services using *Node.js* and *Express.js* following RESTful API architecture.
- Implemented secure user authentication and authorization using *JWT*.
- Designed and managed a *MongoDB* database, handling *CRUD* operations for users, posts, friendships, messages, and profile data.
- Implemented social interaction features including likes, comments, and user connections.
- Integrated frontend with backend *APIs*, including form validation and robust error handling.
- Deployed the frontend on *Vercel* and backend services on *Render*.
- Managed source code and version control using *Git* and *GitHub*.

Technologies

- Frontend: ReactJS, TailwindCSS
- Backend: NodeJS, ExpressJS, Socket.IO
- Database: MongoDB
- Deployment: Github Pages, Render
- Tools: Git/GitHub, VSCode, Postman

LIGHTBRAVE.EDU - STUDENT MANAGEMENT WITH QR CODE | 07/2025 - 10/2025

FullStack Developer

A responsive web application that manages classes, students, and attendance, featuring QR code-based check-in and role-based access for teachers and students.

Responsibilities

Database

PostgreSQL/MySQL

MongoDB

Tools & Deployment

Git/Github

VSCode/Visual Studio

Postman

Docker

Linux (Debian)

Vercel, Render

Soft Skills

Communication

Problem Solving

Critical Thinking

Teamwork

Time Management

- Designed and developed backend services using **Node.js**, **Express.js**, and **TypeScript**.
- Built *RESTful APIs* to handle core business logic and data workflows.
- Designed and managed a *PostgreSQL* database using *Prisma ORM*, including schema modeling and data relationships.
- Implemented secure authentication using *JWT* and *RBAC* for authorization.
- Applied backend security best practices such as password hashing and request protection.
- Developed frontend features using *Next.js (App Router)* and *TypeScript*.
- Built responsive user interfaces with *TailwindCSS*.
- Integrated frontend and backend systems, ensuring data consistency and error handling.
- Managed source code and version control using *Git* and *GitHub*.

Technologies

- FrontEnd: NextJS, TailwindCSS
- Back-end: NodeJS (ExpressJS)
- Database: PostgreSQL
- Deployment: Vercel, Render
- Tools: Git/GitHub, VSCode, Postman
